This property has been built with natural stone half a meter in width with an air chamber, and solid brick in the inside of the house. The roof is natural slate brought in and built by spacialists from Galicia. There is also a wooden chamber to insulate the house from high or low temertures. The doors are solid wood, and the grills are made of wrought iron. There is double glazing , with aluminium windows and shutters. The large bathroom has a hot tub and shower. All bathrooms have been furnished. There are two terraces; one 40m2, the other 20m2 and a porch of 40m2. The attic is provided with a toilet, the living room with a fireplace installation. The plot has portable water, irrigation water and mains electric. The garden has pa...
